

SHARK TOOTH® FINGER WHEEL

Clears residue to improve planting conditions

The original SharkTooth revolutionized how growers used row cleaners. Now Yetter Farm Equipment introduces the SharkTooth Finger Wheel, designed for faster planting speeds.

FEATURES

- » 13 backward-sloping fingers vs. 12 on original design
- » Reduces residue and soil movement at higher operating speeds and increased depths
- » Effective in conventional, minimum till, strip-till, no-till, and cover crop planting conditions

SPECS

- » Wheel diameter: 13"
- » Width: 5/16" vs. 1/4" on original design
- » Weight: 6.55 lbs.

FLOATER WHEEL DEPTH BAND FEATURES

- » Performs at high planting speeds without moving soil
- » Designed with 13 notches to align with 13 SharkTooth fingers

PATENT PENDING
