			4	4	6	6	8	8
			4	4	6	6	8	8

The column labeled "A" lists the available options for the planter.

The column labeled "B" lists the part numbers of products which are available for each option.

The column labeled "C" list how many part numbers are required for each planter.

When ordering, follow these steps:

- 1) Find the correct planter description at the top of columns "C".
- 2) Follow the appropriate column down and across from the option(s) to be ordered.
- 3) Order the part numbers in the quantity stated for each planter. If the part is listed as optional, then it may be excluded from the order.

Be sure to take note of any asterisks (*) and read the comments at the bottom of each page before finalizing an order.
