

New Product Information

Yetter single toolbar perfect fit for a variety of applications

Flat-folding 3800 series single-bar option available in 31' and 41' models

Growers looking for a versatile tool to help with fertilizer and side-dressing operations will soon be able to take advantage of a new toolbar option from Yetter Farm Equipment: 31' and 41' Single Hydraulic Locking Toolbars.

"These toolbars are perfect for fertilizing and side-dressing," said Jared Head, Yetter territory manager. "The single toolbar design allows for efficient field work when producers are tightest on time."

"With this toolbar, you can achieve exactly the custom setup you need," said Head. Various products can be mounted to the toolbars with spacing as narrow as 14" centers and as wide as 60" centers. Category 3, category 3 narrow, and category 4 hitches are standard.

[View the single toolbar on the Yetter website.](#)

31-Foot Toolbar specs

- Actual length: 31'
- Weight: 1,700 lbs

41-Foot Toolbar specs

- Actual length: 41'
- Weight: 2,050 lbs

Yetter offers options to further customize each toolbar for its intended use. A rear hitch can be added to tow fertilizer tanks.

The 31' and 41' toolbars both fold flat or can be set up with a stand stop to limit how far the wings fold.

The toolbars' center and wing sections are constructed of 7" by 7" bars with 3/8" wall tubing. Wings are folded using 4" by 24" hydraulic cylinders. The optional gauge wheels are adjustable with a ratcheting turnbuckle to control operating depth.

Yetter also offers [Double Hydraulic Locking Toolbars](#) in 31' and 41' models.

Profitable Solutions for Production Agriculture

Established in 1930 and based in Colchester, Illinois, Yetter Manufacturing Company is the industry leader in planter attachments that boost productivity and profitability.
