184

(partial illustration of 6 row model shown)

Illustration may not accurately depict row spacing.

Note - For each row, one coulters requires a straight shank and one requires a 5" offset shank. Both coulters must be mounted a minimum distance of 2"-3" from either side of the row. Each shank mounts on the front of the fertilizer bar with the 5" offset towards the front.

Note - For double coulters with other coulters combinations, the same configuration shown would apply.
