

WHITE 6180 Forward Fold Planter 8, 12, and 16 Row

Equipped with: White 3"x 3" diamond fertilizer bar
2995-065-L/R (fert. coulters for 3" x 3" diamond bar)
2990-159 3" clamp kit
3010-303 22" straight coulters shank
3011-302 5" offset shank

I 268

Illustration may not accurately depict row spacing.

Note - For each row, one coulter requires a straight shank and one requires a 5" offset shank. Both coulters must be mounted a minimum distance of 2"-3" from either side of the row. Each shank mounts on the front of the 3"x 3" diamond bar with the 5" offset towards the front.

***Note** - The shanks on the inside rows may need to be shortened to clear the cylinder.

Note - For double coulters with other coulter combinations, the same configuration shown would apply.
