2940 AIR ADJUST™ SERIES
Take control from the cab.

Planting conditions change every hour, every day. That’s no problem with the Air Adjust Series from Yetter Farm Equipment. Equipped with pneumatic controls, this industry-leading lineup allows you to make quick adjustments right from the cab.

IN-CAB CONTROLLER
On-the-go technology
» Make adjustments quickly and accurately during planting
» Height and down pressure settings can be adjusted independently
» Presets can be programmed for quick changes
» Units can be raised from cab as needed with the push of a button for wet areas, waterways, end rows, etc.
» Uses an in-cab screen or integrates with existing ISOBUS monitor

ROW CLEANER
The residue-managing power Yetter is known for with convenient on-the-go adjustment
» Features parallel linkage so row cleaner floats with ground contour
» Is available in wide and narrow widths
» Adjusts up and down pressures to create the ideal ride for row cleaners
» Down pressure can be increased to fix row cleaner in rigid position

PNEUMATIC HYDRAULIC CONTROLLER KIT
HYDRAULIC PNEUMATIC COMPRESSOR KIT
PERFECT FOR YOUR ON-THE-GO OPERATION

Stopping to adjust to changing field conditions means you cover fewer acres per day. The Air Adjust Series eliminates that waste and helps you cover more ground in less time.

FIRMING WHEEL
A solution for challenging soil
» Complements closing wheels by gently firming the seed zone
» Creates a uniform growing environment and helps prevent air pockets

ROLLING BASKET
Add rolling baskets to firm soil for ideal seedbed creation
» Helps create smoother ride for planter gauge wheels and row unit
» Is available with row cleaners as a combo unit

COULTER/ROW CLEANER COMBO
Unit-mounted coulter with air-adjustable floating row cleaner
» Coulter can be removed and row cleaner can still be used
» Adjust up and down pressures to create the ideal ride for row cleaners
