

2969 IntelliNject™ FERTILIZER OPENER

Maximize Yield Potential and Plant Uniformity

Fertilizer is an investment that promotes healthy, uniform plants, and that helps increase yields. The IntelliNject Fertilizer Opener places two bands of liquid fertilizer in the soil surface for early root interception and usage.

IntelliNject Fertilizer Opener Features

- » Places liquid fertilizer behind the planter closing wheels
- » Follows the ground contour during planting
- » Air cylinder allows in-cab adjustments to downforce or allows unit to raise when not in use
- » Provides placement of fertilizer up to 1 1/2" deep and 2"-3" off the row
- » Drag chain helps close the disc opening and cover the seed trench
