

1200 LIDLIFT™

A time-saving solution when it matters most

DURING PLANTING, EVERY MINUTE COUNTS

With the 1200 LidLift from Yetter Farm Equipment, the task of filling planters goes more smoothly and takes less time. Open all the seed box lids with the turn of a knob to check seed levels or fill with seed. Lock lids down so there's no need to worry about losing lids during transport. The LidLift is a simple upgrade to make filling row units easier.

OPEN ALL LIDS IN SECONDS WITH THE TURN OF A KNOB

- Saves time and makes filling or checking seed levels in boxes easier
- Features quick-release latch for row-meter service
- Installation is quick and easy
- Latching mechanism locks lid down until released manually or pneumatically
- Prevents loss of lids during transport or planting
- Fits most planter models with individual boxes
- Can be used with an existing air source or by installing an air source on the planter
